The Rob George Foundation was founded in loving memory of Rob George, who died aged 21 on 9th December 2013 following a long battle with leukaemia.

The Rob George Foundation has been set up to:

- 1) provide practical and/or financial support to young people with life threatening or terminal illnesses
- 2) provide financial support to young people who demonstrate exceptional commitment and/or ability in the worlds of sport or the performing arts but may be held back by their financial situation from pursuing their goals.

Cruse Bereavement Care's vision is that all bereaved people have somewhere to turn when someone dies. Our mission is to offer support, advice and information to children, young people and adults when someone dies, and to enhance society's care of bereaved people.

Cruse provides training for external organisations and for those who may encounter bereaved people in the course of their work.

**Arthritis
Research UK**

Providing answers today and tomorrow

We're working to take the pain away from people living with all forms of arthritis and helping them to remain active. We'll do this by funding high class research, educating health care professionals and providing information to people with arthritis and their carers.
